**Millennium Systems International Adds Tippy to MeevoXchange Marketplace**  
*Meevo 2 and Tippy Partnership Now Available to Salons and Spas*

**Parsippany, NJ:** Millennium Systems International (MSI), the leader in beauty and wellness software solutions and provider of the award-winning Meevo 2 business management platform, announced its partnership with Tippy that will bring the popular beauty industry tipping platform to Meevo 2 and its users.

Tippy is the tipping solution that is revolutionizing the beauty industry. Tippy provides salon professionals with free, real-time access to their tips, all while saving salons and spas the processing fees on the tips.

“As disruptors and innovators in the beauty and wellness industry for over 30 years, we to continue to provide our clients with the technology and solutions they want and need to grow their businesses,” says John Harms, Founder and CEO of Millennium Systems International. “Many of our clients have asked for Tippy, and with our companies’ shared vision and passion for the industry, this partnership is one that I am thrilled to bring to our Meevo 2 community.”

By using Tippy, salon professionals can choose whether to receive their tips in real-time or the next business day via ACH direct deposit. Tippy also offers a robust mobile application, available for iOS and Android devices, that helps financially empower and motivate salon employees.

“We believe there are many synergies between Millennium Systems International and Tippy and couldn't be more excited for this partnership,” says Terry McKim, Founder of Tippy. “Tippy has developed tools that improve the tipping experience from all angles – the salon or spa, the service professional, and the client – and we cannot wait to make these tools accessible to Meevo 2 customers through the MeevoXchange and continue to add more tools as our partnership grows.”

Meevo 2 clients can learn more about Tippy by visiting the MeevoXchange Marketplace and selecting the dedicated tile for Tippy.

“We are looking to bring awareness to this innovative tool to help our clients grow their business,” says Andrew Clarke, Vice President of Product Development at Millennium Systems International. “Our Product Team strives to offer the resources and features clients want to see in Meevo 2 and are excited for the launch of our partnership with Tippy.”
